

Setting up Técnico's email on MacOS Catalina

Step 1: Open MacOS mail client (Apple Mail). You should obtain a window similar to the one presented below. Choose the option "Other Mail Account..." and then click "Continue".

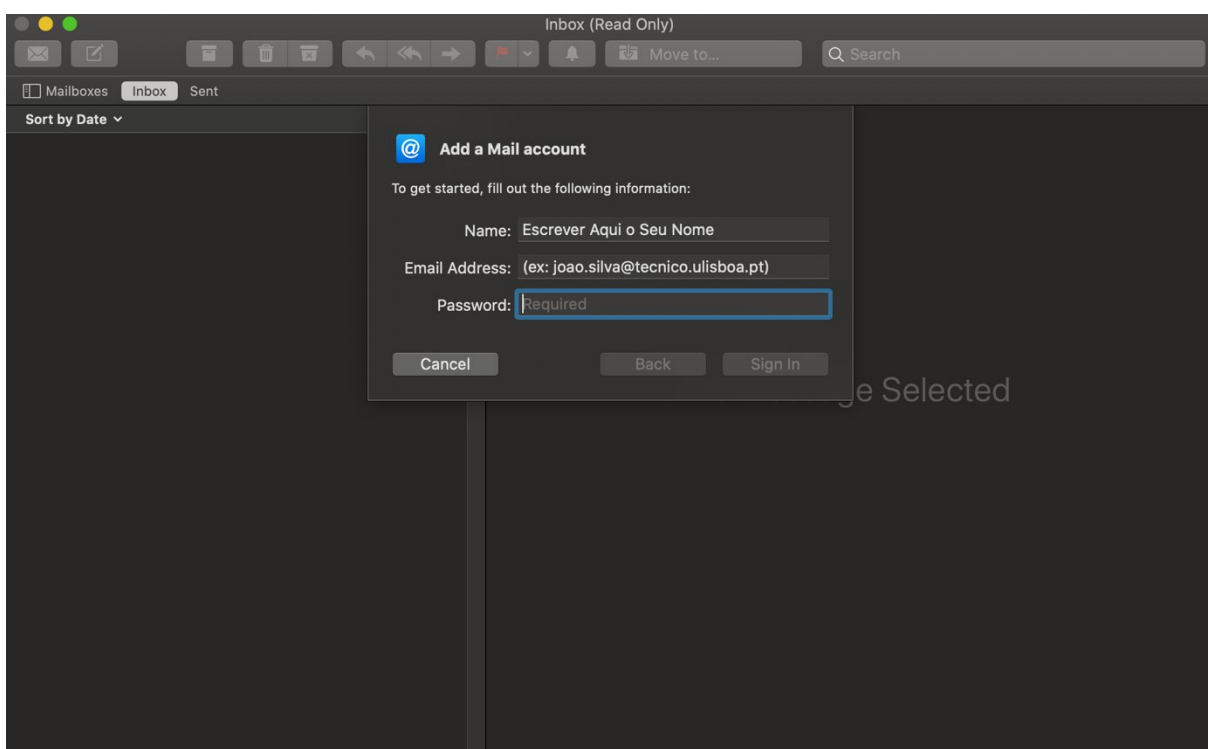

Step 2: In this step, you have to fill the required boxes with the information below and click "Sign in".

Name: Insert here your name

Email Address: insert here your Técnico's email adress

Password: email access password (same password used on Fénix)

Step 3: Step 2 will redirect you to a similar window as shown below. You should not be able to log-in immediately after completing the previous step. To properly log-in, it is necessary to add a few more parameters. For this, fill the boxes presented to you with the following:

Email Address: insert here your Técnico's email adress

Username: istID

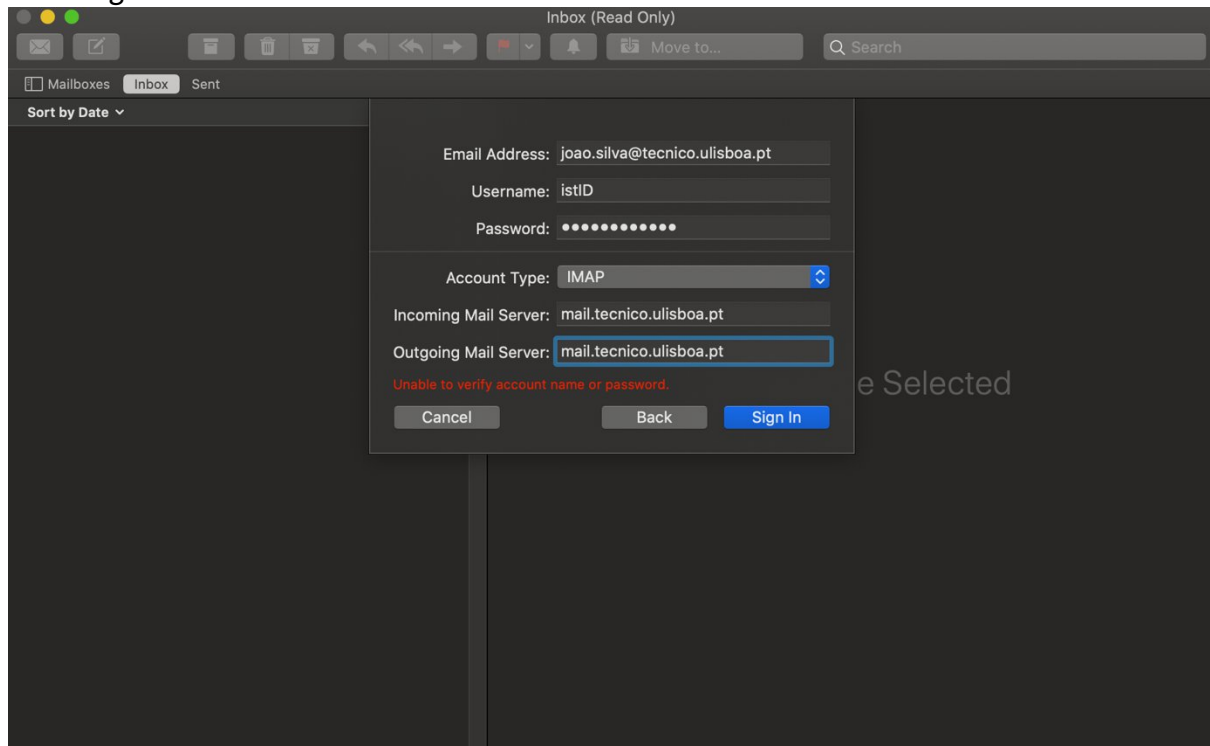

Password: email access password (same password used on Fénix)

Account Type: IMAP

Incoming Mail Server: mail.tecnico.ulisboa.pt

Outgoing Mail Server: mail.tecnico.ulisboa.pt

Click "Sign In".

Step 4: Here you just have to click "Done" and that's it!
