

# Setting up the eduroam wireless network in Windows 10

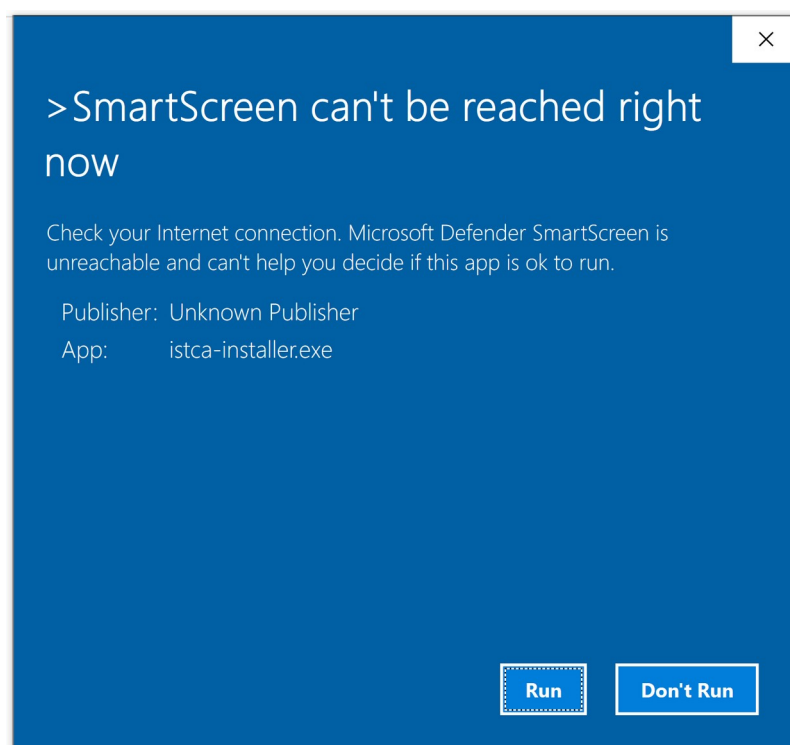

**Step 1:** Click in the wireless networks icon, located in the taskbar. Choose the “**tecnico-guest**” and click connect.

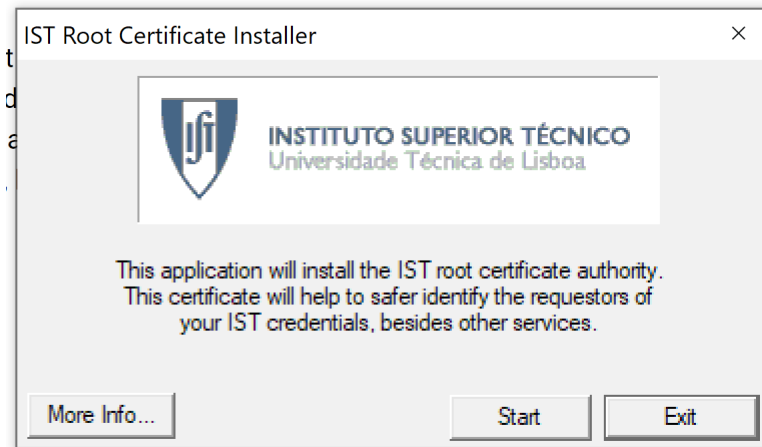

**Step 2:** After being connected to the “**tecnico-guest**” network, open the browser and access the following address to download the certificate: <http://dsi.tecnico.ulisboa.pt/configuracoes/istca-installer.exe>

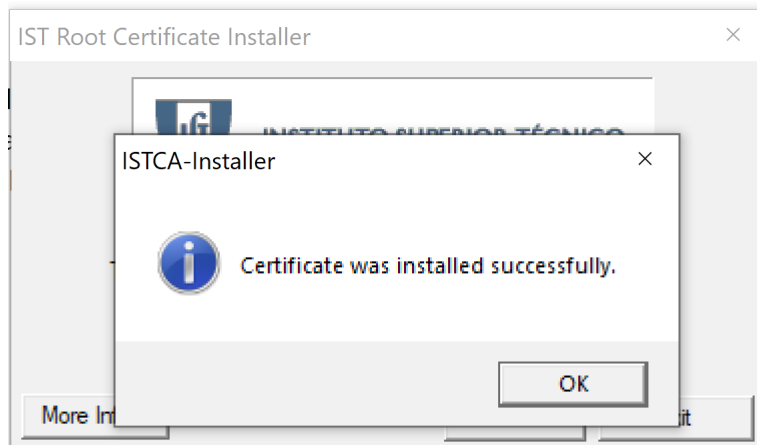

**Step 3:** Once the download is finished, double click the installer. In the *Windows SmartScreen* window, click “**Run**”.

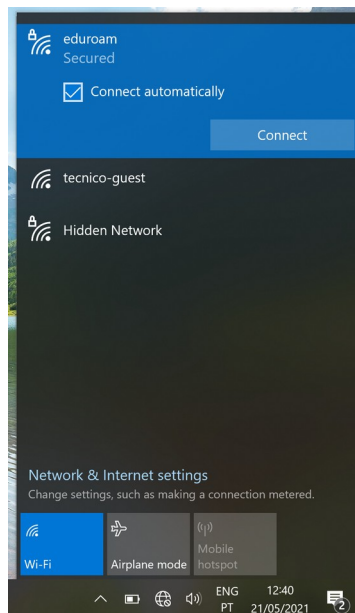

**Step 4:** In the IST certificate installer application, click **“Start”**.

**Step 5:** Click **“OK”** once the confirmation message pops up.

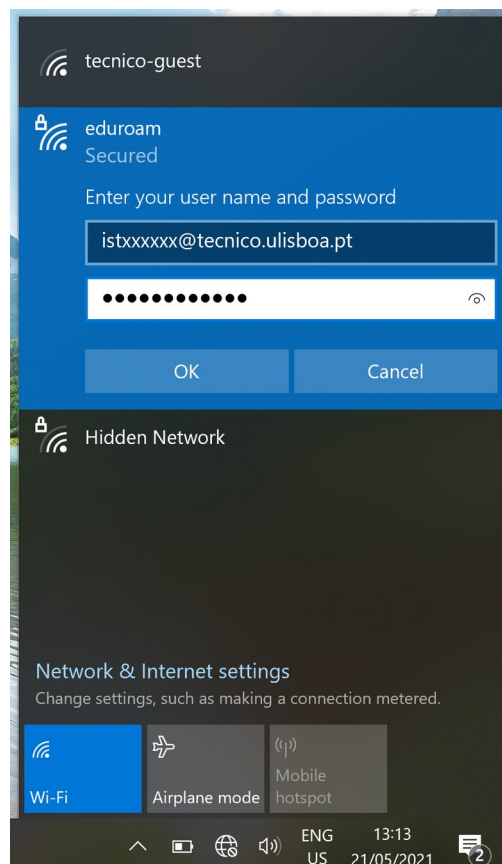

**Step 6:** Open the wireless networks menu again. Choose the “**eduroam**” network and click “**Connect**”.

**Step 7:** Fill the following fields:

- Username: **istxxxxxx@tecnico.ulisboa.pt**, where istxxxxxx corresponds to your Técnico ID
- Password: password corresponding to your Técnico ID

**Step 8:** The “**eduroam**” wireless network should be configured in your computer.
